Pricing

The Pelago Substance Use Management Program is a comprehensive, evidence-based approach to addressing substance misuse within a population. From unhealthy habits to active substance use disorders, Pelago delivers a personalized, convenient, high quality yet cost-effective treatment plan based on individual needs.

There are 3 components of the Pelago program*:

After a clinical assessment, each employee is matched to the tier that best fits their needs—Support, Manage, or Treat. This tiered approach ensures your workforce receives the right level of care, while pricing aligns with clinical intensity to optimize both outcomes and cost-efficiency.

1 SUPPORT	For low severity members who would benefit from early intervention (ASAM 0.5-1). No limit on sessions with their coach.	\$495
2 MANAGE	For members requiring higher acuity, outpatient level support including CBT from a drug and alcohol counselor (ASAM 1.0). This includes 8 sessions with a drug and alcohol counselor. Individual fee for service rates apply after the 8 sessions.	\$2,995
3 TREAT	For members requiring higher acuity support involving a physician or nurse practitioner and medication assisted treatment (ASAM 1.0-1.5). Pelago provides an optional fulfillment pathway for anyone in need of medication to help them with their treatment. Pricing for all medications are market standard and pass through with no markup. Includes 8 sessions with a drug and alcohol counselor along with 8 provider sessions. Individual fee for service rates apply after the 8 sessions.	\$3,495

*All programs are 12-months in length.
